CALGREEN COMPLIANCE

STEP - 1

- **CALGreen Code requires 65% of Construction & Demolition (C&D) waste to be recycled.**
- **For more information on CALGreen Requirements visit:** http://www.calrecycle.ca.gov/LGCentral/Library/canddmodel/instruction/faq.htm

STEP - 2

- **Review C&D Recycling Guide and Approved Haulers to plan for recycling services.**
- **Complete C&D Recycling Plan**
- **C&D Recycling Plan must be completed prior to issuance of your permit**
- **C&D Reycling Guide, Approved Haulers, and Sample Recycling Plan here:** http://www.cosb.us/county-departments/integrated-waste-management/solid-waste-diversion-plan

STEP - 3

- **Contact your chosen recycler and/or hauler to arrange recycling for your site.**
  - **All haulers must have a signed Non-Exclusive Franchise Agreement on file to conduct business in San Benito County. Consult the Approved Haulers handout for more information.**
- **Source separating C&D Material may save you money. C&D processors may charge lower prices for clean C&D material as opposed to mixed C&D material.**
- **Ensure 65% OF ALL C&D WASTE IS RECYCLED, and KEEP ALL WEIGHT TAGS for verification.**

STEP - 4

- **Complete Post Construction Report – on reverse of Recycling Plan**
- **View Sample Recycling Plan and Sample Post Construction Report here:** http://www.cosb.us/county-departments/integrated-waste-management/solid-waste-diversion-plan
- **You must submit your completed Post Construction Report and WEIGHT TAGS for verification PRIOR TO RECEIVING YOUR FINAL.**
